

Nashoba Regional High School

School Council Meeting 1/18/18

Present: Meghan Curran, Ihsan Mulyono, Laurie Burnett, Paul Di Domenico

1. The last meeting was November 16 as we did not meet in December. A review of the community bonfire & pep rally was given. There was talk about other student achievement recommendation events later in the year.
2. We reviewed school council information from schools in the greater Metrowest area. This information was compiled by Sean Bevan, the principal at Westwood HS. We discussed the makeups of various councils and how to best recruit a community member.
3. School Improvement plans. What should each improvement plan have? A vision and a connection to district goals are needed. Also, a long range plan based on useful data is essential.
4. At our next meeting, Laurie Burnett will lead the group in an exercise called "Back to the Future." I won't give too much away as far as the details!

Next two meetings: Thursday, February 15 & Thursday, March 15.... 6 – 7 pm in the main office
